

SMILE CRAFTS

Make a collage using pictures of smiles cut out of magazines.

Draw the different expressions.

Make smiley face masks using yellow paint and paper plates.

Make this Smiling Craft.

Materials Needed: Construction Paper, Scissors, Glue

Instructions: Cut out a 6" by 4" pair of smiling lips out of red construction paper and an 8" by 1/2" strip of white paper. Snip off little pieces of the white paper strip to make "teeth". Glue the paper teeth on the paper lips to make big toothy smiles.

Make yourself a Smiling T-shirt.

Materials Needed: Bright Yellow T-Shirt, Cardboard and Dark Colored Fabric Paint

Instructions: Cut a piece of cardboard to fit inside the shirt (this is so the paint won't sink through). Now, simply use the fabric paint to make a big smiley face on the shirt! Include the eyes, nose, and mouth. You can even do it like this if you want. Give it at least 24 hours to dry (please be sure to read the instructions on the fabric paint you bought).

Try making a Happy Face Ring.

You'll find instructions at this web page: <http://www.kidsdomain.com/craft/smilingring.html>
